VENDOR CLASSES	
Code Club: Scratch Beginner & Beyond	In this TechVenture Kids after-school Code Club, kids design and program their own games and animations while exercising those STEM skills. . Kids will be introduced to the core concepts of computer programming using the SCRATCH development platform. Students are also encouraged to collaborate and present or share their projects with others - trying new projects each session, to express creativity and advance as a coder. Our progressive curriculum will allow you to move to the next level after just 1-2 sessions. This coding club is open to all levels, beginner - advanced. Experienced with Scratch? We will assess skills on the first day of class to ensure an appropriate level of challenge throughout the session.
Computer Foundation and Beyond	<p>This foundation building program focus on introducing various programs and skill building activities for early tech kid. This builds a good foundation for them to be comfortable using various programs and tools and eases them to take up the technology challenges and projects for higher grades by making them more tech savvy. They will learn basic and some advanced skills in</p> <ul style="list-style-type: none"> • Word processing • Graphic arts and Animation • Intro to Scratch <p>They will also get lot of opportunity to get proficient in basic skill like using the mouse buttons properly, typing, formatting shortcuts and word processing skills along with developing good computer habits of organizing and saving their work.</p>
KIDSTAGE Acting	Bring colorful characters to life through creative stories, games, and teamwork. Put it all together on stage for friends and family. Exploratory acting classes provide literature-based drama activities that promote literacy comprehension, confidence, collaboration, and creativity.
Crazy Chemworks Mad Science	The wonders of chemistry are revealed as our junior chemists create surprising concoctions, break molecules with ease and shake up a flask full of fun. Kids will use the tools, safety procedures and laboratory techniques of real chemists as they investigate solids, liquids and gases at the atomic level. They'll craft chemical combinations to create super-sticky-stuff, analyze the properties of light and ooze into the world of polymers. Exploring the elements has never been so much fun!
Origami Club	Do you know that when you practice origami, you are activating your whole brain? It has long been known that origami has many benefits like developing eye hand coordination, sequencing skills, attention skills, patience, temporal spatial skills etc. If you are interested in Origami or are eager to learn how to make Origami, come to "Origami Club", a positive place to learn Origami.
Sports Spectacular	Let's Play! Save the best for last by finishing up the school day with Sports Spectacular, a variety athletic program that features different sports throughout the session. Participants will practice skills and play games in both traditional sports and playground favorites. The Sports Spectacular Variety Program features the best "to-do" list ever – Basketball, Soccer, Flag Football, Kickball, Capture the Flag, Wiffle Ball, Bump and Bite, Knights and Dragons, Numbers Game, Tag Games, Safe Base and MORE!
YMCA LED CLASSES	
African Safari	Join a Y Instructor as you venture into one of Africa's most valued treasures. Prepare yourself for a wild adventure as you learn about the many animals living in this animal lover's paradise.
Around the World Sports	Learn how to play popular games from different countries from all around the World.
Artist Showcase	Come learn about the different styles of art from the perspective of many famous artists throughout our history. We will show different styles and techniques that will broaden everyone's artistic views.
Australian Adventure	Head down under to discover the amazing country of Australia. Each week you will head out on an adventure and explore this vast country.
Basic Chess	In this course we will explore our creative side as we build sculptures, cities and anything we can imagine out of Legos.
Bedazzling Beads	Create fantastic pieces from bracelets, rings, necklaces, and more. Use mediums that include beads, wire, paper, and clay. Everyday participants will take home a priceless treasure.
Brain Games	Come challenge your brain with a variety of activities. Solving riddles, puzzles, and word play activities are just a few of the ways you will challenge your brain.
Cardio Blast	Keep yourself active everyday! Explore a world of playground games you never knew existed. Each week we will learn two new and exciting games and try them out.
Cartoon College 2	Ever wonder where cartoonists learned to draw? Well, in cartoon college we will learn some of the basics of this hilarious art form.
Claymation	Students will gain understanding of clay as an artistic medium through various projects. Each week students will use clay and paints to create a new piece of art.
Culture to Culture	Kids will explore different cultures from around the world. They will be playing games, making food and constructing crafts from different places in the world.
Designer's Challenge	Brainstorm ways to design projects using certain materials. Then follow your design plans to explore and create.
Dodgeball 2	Dodgeball, Dodgeball, Dodgeball....Enough said! Join a YMCA instructor as you learn to play the many different ways to play.
Dreamwork Teamwork	Students will learn the value of teamwork by playing a variety of games and activities together.
Duct Tape Art	Duct tape can be used for just about everything. We will use all shades and colors of duct tape to create awesome works of art.
Experiment Mania	Have fun while learning and doing basic Science Experiments!
Fantastic Fitness	Challenge yourself to get healthier and get moving. Can you improve your physical fitness by the end of the session? Track your progress as you go each week!
Games Mania	Participate in all kinds of games. Active games, board games, strategy games, puzzles, card games and more!
Group Games	Explore a variety of new ways to play new games and old favorites.

YMCA LED CLASSES	
Guide to the Galaxy	Explore fun ways to learn about our planet and other planets in our galaxy.
Imagination Station	Kids will be encouraged to activate their creativity when making various, fun projects.
Improvisation	Here is the chance of a lifetime where you can be anything that you want to be. You can be an astronaut, a scientist, and even a super-hero as you explore your creativity through the art of improv.
Lacrosse	Course Goals and Student Learning Objectives: Students will be introduced to basic lacrosse skills and techniques in order to learn how to play in a real game.
New Lego Time	With Legos, the only limit is your imagination. Each week, students will break into teams to build their own Lego creations with a spe-
Original Origami	It's all about the art of Paper folding. We will learn how to make balloons to boxes, cranes to frogs, we'll do it all! Create some fantastic pieces to take home each day.
Team Color Chal-	Students will be split into teams to work together and win challenges.
Terrific Ball Games	It's all about ball games. Improve your hand-eye coordination skills and develop teamwork with other participants. From traditional
